President's Corner

Greetings radio amateurs! Thank you for giving me the opportunity to lead the club in 2018. I hope to build on the many great things the club does and add few of my own twists. My main interests are DX'ing, QRP, Field Day, and building radios, so there will be lots of that but we'll also continue to support EmComm as we've always done. I encourage everyone to get their storm spotter credentials and join Tarrant County Races, as well as participate in the siren tests and hospital nets. My main goal is to get everyone on the air!

Currently the club has three operating events each year, the club picnic, Field Day, and JOTA (Jamboree On The Air). Roughly those are Spring, Summer and Fall. I would like to add a fourth event and my first inclination was the Texas QSO party but it's too close to JOTA. I think it makes the most sense to add an event in the Winter. The ARRL International DX Contest, SSB, the first week in March would be a fun contest to work as a club. Let me know what you think.

To encourage the use of the repeater, I'd like to bring back our AARC/newbie net. I'd like to get all new licensees on the air with a regular activity. I propose that the net be at 7:00pm on the Saturday after the meeting to begin with. That way the date is fresh in everyone's mind and it gives people who do the dining out on Saturdays after the meeting enough time to get home before the net. We can start the net on analog and then move to digital, for those who have it, later in the net.

Some other ideas I'd like to get feedback on:

Building projects - Micro-controllers? Antennas? Radio? Other? Do a big project as a group or individual projects?

Work parties to help everyone set up a basic antenna to get them on the air I'm talking one or two hours on a Saturday to help members set up a simple dipole or vertical.
We have a library of books. I need someone to volunteer to bring them to the club meeting each month and hold on to them between meetings.

I can be reached at rob@robmay.com or text or call 682-559-7246.

See you at the meeting!

Warning sirens

The City Of Arlington tests its outdoor warning sirens at 1:00 pm on the first Wednesday of each month, using volunteer observers, most of whom are hams reporting into a net held on the AARC's 2m repeater (147.140+, PL 110.9). Check-ins begin during the noon hour, and the test typically concludes before 1:30 pm. More observers are always needed, so please consider helping with this valuable effort if you can spare about an hour at lunchtime once a month.
